Our client is currently looking for an OPERATIONS MANAGER for their new MANUFACTURING FACILITY located in SWIFT CURRENT, SK

The Operation Manager is responsible for providing overall management, administration and technical direction for the Manufacturing Team. The successful candidate will ensure all Safety and Environmental Standards, coordinate scheduling of crews and equipment as well as maintenance repairs. Must be able to communicate and co-ordinate between other departments divisionally and develop an atmosphere of teamwork and be able to resolve conflicts positively.

You will have 5+ years of management experience within a Manufacturing, Agriculture or Industrial environment. You will pride yourself on being a hands on manager with an open door policy. You are noted for treating your team as family and getting to know what motivates them to succeed. You will be a motivated go getter who has a track record of developing strong teams with a strong understanding of how to grow the bottom line and how production and costing plays a huge part in a company's success.

Responsibilities:

- Ensure all Safety and Environmental standards are achieved by all employees.
- Co-ordination/scheduling of crews and equipment in order to optimize resources in the manufacturing and operation of the company
- Assist in planning during pre-bid operations for estimating purposes
- Troubleshoot and mitigate unforeseen problems during manufacturing and process to minimize financial/scheduling impact.
- Create an atmosphere of teamwork by communicating and coordinating inter-divisionally.
- Assist in developments of budgets, targets, strategies and objectives and work towards the same.
- Assist in the co-ordination of maintenance service, marketing, logistics and operations.
- Seek out and implement best practices.
- Manage manufacturing schedule as well as other department/divisions

Qualifications:

- Mechanical engineering degree or equivalent mixed with a combination of manufacturing experience
- 5+ years of management experience in Manufacturing, Agriculture, Mechanical or Industrial industries
- Extensive experience with managing a team of 7+ direct supervisors and 90+ indirect employees from multiple divisions
- Innovative, ability to identify and implement new processes to increase efficiency and effectiveness of the team and project.
- Highly developed communication skills, written/oral.
- Strong interpersonal skills.
- Self-motivated.
- Enthusiasm for challenge and new initiatives are prerequisites.
- Ability to work independently and collaboratively within a team environment.
- Developed decision making skills
- Thorough understanding of corporate and industry practices, processes, standards etc.
- Proficient in working with computers and various software applications.

Demonstrated experience in the following areas:

- Production
- Manufacturing

- Purchasing
- Costing
- Budgeting
- Supervision
- Budgeting

Our client offers competitive wages, a comprehensive benefits package, and an opportunity to join their Group RRSP Program.

We thank all applicants in advance however only those qualified and a Canadian Citizen or working paper or Visa authorization to work in Canada will be contacted all other resumes will be kept on file for future consideration.
